Leadership Medina County
is a nonprofit 501(c)(3) organization.

CLT

Custom Leadership Training

Customized for Your Team

Your Leadership Edge

Our staff teach certified curriculum from *Your Leadership Edge* by Edward O'Malley and the Kansas Leadership Center on working through adaptive challenges in the workplace and your community.

Customized Leadership Training (CLT) uses proven techniques taught by our staff, top corporate trainers, coaches, and university professors. Based on principles and foundations in *Your Leadership Edge*, your employees will explore four unique leadership competencies and practice applying these competencies in real work scenarios to help them become more effective leaders.

Along with improving their leadership skills, participants will also engage in "Discover Medina County" experiences from our Signature Leadership Program. These field experiences allow for a greater understanding of the issues in our community. Specifically, we focus on nonprofits to help our clients build empathy, leading to increased loyalty and productivity, reduction of stress, and the creation of positive relationships.
